### 48 Volt Power Supply Installation Guide Supplement

#### INSTRUCTIONS:

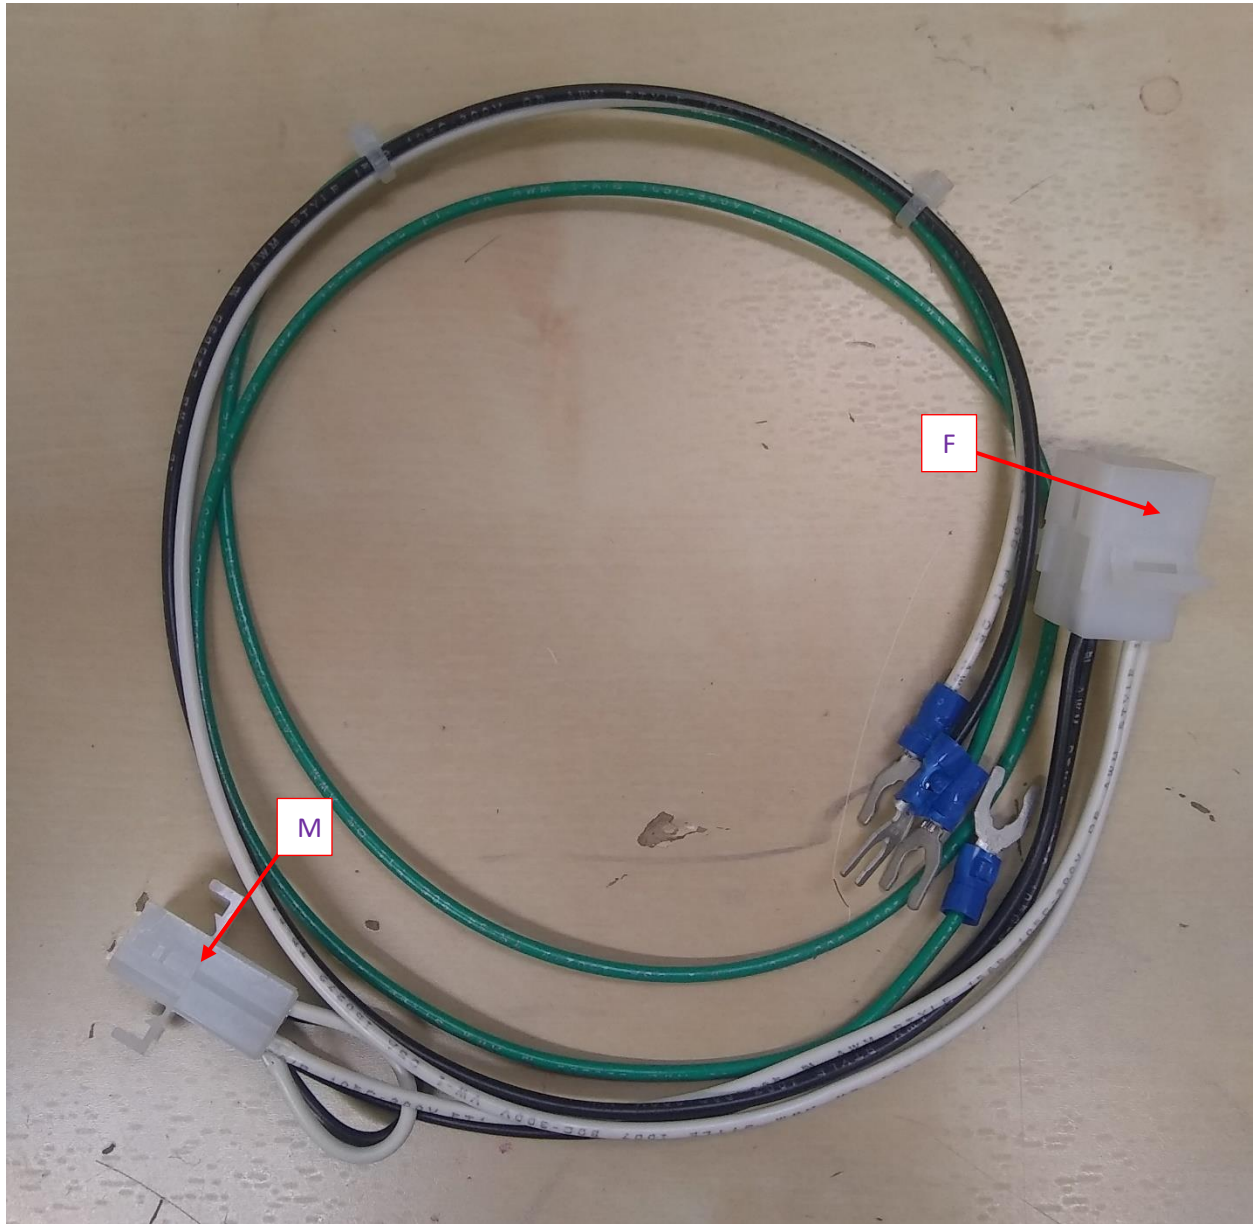

1. Please Reference these pictures for your new power supply.

A – The 4 mounting holes for securing the power supply

- (1)L = Black AC - Line
- (2)N= White AC - Neutral
- (3)G = Green – Earth Ground
- (5)(-) = Black (48 Volt Logic Ground)
- (8)(+) = Brown (48 Volt Positive)

2. Ensure that the new AC wiring harness matches your existing harness, there were some differences within the production run. Wires must match.
